

Golf Buggies at Thonock Park

To ensure our less-mobile members and visitors enjoy their golf at Thonock Park, we are happy to allow the use of single seater and double seater golf buggies.

Players can either use their own buggy or hire one of ours. When using your own buggy, owners must provide evidence of an appropriate golf buggy insurance policy before play. A copy of our buggy rules and conditions must be signed in the Professional Shop. Failure to provide a current 'cover letter' detailing your insurance details, could result in refusal to allow your buggy onto our course. If you are in any doubt, we advise you to contact us before arrival for clarification.

Sometimes, due to extreme weather and our terrain, we have to close the course completely, but if we can open, some restrictions may be necessary on where buggies can be used. We operate a traffic light policy on buggy use which is:

- Green – Buggies available to use.
- Amber – Buggies restricted to only Blue Badge holders and persons with valid medical certificates.
- Red – Buggies restricted to Blue Badge holders only, playing a specific 9-hole route to avoid steep, unsafe terrain.

We will always try to find the right balance between allowing safe buggy use and protecting the course from lasting damage.

Buggies can be reserved in advance by calling the Professional Shop on 01427 613088.
